

7) Graphic editor :

- 1) It contains the toolbox which has all the req. tools such as lines, circles, polygons etc.
- 2) Color box is present.
- 3) Standard toolbox with options for new, open, save, text toolbox.
- 4) One integrated view to users for toolbox, color box, & graphic screen.
- 5) Easy to handle the tools for users.
- 6) Ability to group several drawings into one complex drawing.
- 7) Provision of zoom in and out.
- 8) Different shadings of line tool are provided.

Problem Statement :

The existing graphics system has some loose ends. The ~~AT~~ current version is a underdeveloped for the current application & usage.
